TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
NC1	Verify Customer Name Field	add customer name with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add valid name	-rahma	Customer name added successfully	Customer name added successfully	Pass
NC2	Verify Customer Name Field	Name cannot be empty	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in name field		An error message "Customer name must not be blank" must shown	An error message "Customer name must not be blank" must shown	Pass
NC3	Verify Customer Name Field	First character cannot have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add name with first character is space		An error message " First character cannot have space" must shown	An error message " First character cannot have space" is displayed	pass
NC3	Verify Customer Name Field	Name cannot have Special characters	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add name with special caracters	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	Pass
NC4	Verify Customer Name Field	Name cannot have numbers	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add name with numbers	1234 name123	An error message "Numbers are not allowed" must shown	An error message "Numbers are not allowed" displayed	Pass
NC5	Verify Address Field	add Address with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add correct address		Address added successfully	Address added successfully	Pass
NC6	Verify Address Field	Address Field must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in address field		An error message "Address must not be blank" must shown	An error message "Address must not be blank" display	pass
NC7	Verify Address Field	First character can not have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add address with First character is space	name	An error message "First character must not have space" must shown	An error message "First character must not have space" display	pass
NC8	Verify Address Field	Special characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add address with special caracters	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	pass
NC9	Verify City Field	add City with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add correct city	cairo	City added successfully	City added successfully	Pass
NC10	Verify City Field	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add city with special caracters	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	Pass
NC11	Verify City Field	City Field must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in city field		An error message "City Field must be not blank" must shown	An error message "City Field must be not blank" displayed	Pass
NC12	Verify City Field	Numbers are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add city with numbers	cairo123 123	An error message "Numbers are not allowed" must shown	An error message "Numbers are not allowed" displayed	Pass
NC13	Verify City Field	First character can not have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add city with First character is space		An error message "First character must not have space" must shown	An error message "First character must not have space" displayed	Pass
NC14	Verify state Field	Numbers are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add state with numbers	cairo123 123	An error message "Numbers are not allowed" must shown	An error message "Numbers are not allowed" displayed	Pass
NC15	Verify state Field	State must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in state field		An error message "state must not be blank" must shown	An error message "state must not be blank" displayed	Pass
NC16	Verify state Field	Special characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add state with special characters	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" must shown	Pass
NC17	Verify state Field	First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add state with first character is space		An error message "First character must not have space" must shown	An error message "First character must not have space" displayed	Pass
NC18	Verify state Field	add state with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add correct state	cairo	State added successfully	State added successfully	Pass

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
NC19	Verify Pin Field	add Pin with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add a valid pin	123456	Pin added successfully	Pin added successfully	Pass
NC20	Verify Pin Field	Characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin with characters	12345r	An error message "characters are not allowed" must shown	An error message "characters are not allowed" displayed	Pass
NC21	Verify Pin Field	PIN Code must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in pin field		An error message "Pin must not be blank" must shown	An error message "Pin must not be blank" displayed	Pass
NC22	Verify Pin Field	Special characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin with special characters	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	Pass
NC23	Verify Pin Field	PIN Code must have 6 Digits	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin code with 5 digits	12345	An error message "PIN Code must have 6 Digits" must shown	An error message "PIN Code must have 6 Digits" displayed	Pass
NC24	Verify Pin Field	PIN Code must have 6 Digits	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin code with 6 digits	123456	Pin added successfully	Pin added successfully	Pass
NC25	Verify Pin Field	PIN Code must have 6 Digits	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin code with 7 digits		not allowing PIN Code more than 6 Digits	not allowing PIN Code more than 6 Digits	Pass
NC26	Verify Pin Field	First character cannot have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add pin with first character is space		An error message "First character must not have space" must be shown	An error message "First character must not have space" displayed	Pass
NC27	Verify Mobile Number Field	Mobile no must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in Mobile Number field		An error message "Telephone no must not be blank" must shown	An error message "Telephone no must not be blank" displayed	Pass
NC28	Verify Mobile Number Field	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Mobile Number with special character	name!@# !@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	Pass
NC29	Verify Mobile Number Field	Character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Mobile Number with character	char	An error message "Characters are not allowed" must shown	An error message "Characters are not allowed" displayed	Pass
NC30	Verify Mobile Number Field	First character can not have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Mobile Number with first character is space		An error message "First character must not have space" must shown	An error message "First character must not have space" displayed	Pass
NC31	Verify Mobile Number Field	add Mobile Number with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Mobile Number with valid number	10000000	Telephone number added successfully	Mobile number added successfully	Pass
NC32	Verify Email Field	Email ID must not be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-do not enter a value in Email field		An error message "Email must not be blank" must shown	An error message "Email must not be blank" must shown	Pass
NC33	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email with special character only	!@#@	An error message "Email-ID is not valid" must shown	An error message "Email-ID is not valid" must shown	pass
NC34	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email without "@" symbol that separate the local part from the domain part.	rrrrgmail.com	An error message "Email-ID is not valid" must shown	An error message "Email-ID is not valid" shown	pass
NC35	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email without ".com" last part	rrrr@gmail	An error message "Email-ID is not valid" must shown	An error message "Email-ID is not valid" shown	pass
NC36	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email with space.	rr rr@gmail	An error message "Email-ID is not valid" must shown	No error message	Fail

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
NC37	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email with first character is special character	!!rrrr@gmail	An error message "Email-ID is not valid" must shown	No error message	Fail
NC38	Verify Email Field	Email ID is not valid	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email with last character is special character	rrrr!!@gmail	An error message "Email-ID is not valid" must shown	No error message	Fail
NC39	Verify Email Field	First character can not have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add Email with first character is space		An error message "Email-ID is not valid" must shown	An error message "First character must not have space" displayed	Pass
NC40	Verify Email Field	add Email with valid input	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add valid Email	guru99@gmail.com	Email added successfully	Email added successfully	pass
NC41	Verify Reset button	Reset Button Functionality	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add data in all fields 5-Click on Reset button		Confirm Reset button clears all the input fields without submitting the form	confirmed	pass
NC42	Verify "Home" button	Home Button Functionality	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new customer 3-add new customer 4-add data in all fields 5-Click on Home button		Navigate to the home page.	Navigated to the home page.	pass

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
NA1	Verify Customer Id	Customer ID cannot be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-do not enter any value in Customer Id field		An error message "Customer Id must not be blank" must shown	An error message "Customer Id must not be blank" displayed	pass
NA2	Verify Customer Id	Customer Id cannot have special characters	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add customer Id with special character	!@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" is displayed	pass
NA3	Verify Customer Id	Customer Id cannot have characters	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add customer Id with character	char	An error message "characters are not allowed" must shown	An error message "characters are not allowed" is displayed	pass
NA4	Verify Customer Id	Customer Id First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add customer Id with first character is space		An error message "First character must not have space" must shown	An error message "First character must not have space" is displayed	pass
NA5	Verify Customer Id	Customer id must be numbers	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add customer Id with numbers only	1234	Customer Id added successfully	Customer Id added successfully	Pass
NA6	Verify Initial deposit	Characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add character to Initial deposit	char	An error message "characters are not allowed" must shown	An error message "characters are not allowed" is displayed	pass
NA7	Verify Initial deposit	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add special character to Initial deposit	!@#char	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" is displayed	pass
NA8	Verify Initial deposit	Initial deposit cannot have space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add Initial deposit with number and space between numbers	12 34	An error message "characters are not allowed" must shown	An error message "characters are not allowed" is displayed	pass
NA9	Verify Initial deposit	Initial deposit cannot be blank	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-do not enter any value in Initial deposit field		An error message "Initial deposit must not be blank" must shown	An error message "Initial deposit must not be blank" is displayed	pass
NA10	Verify Initial deposit	Initial deposit must be numbers only	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add numbers to Initial deposit only	1000	Initial deposit added successfully	Initial deposit added successfully	Pass
NA11	Verify Initial deposit	Initial deposit First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-new account 3-Add new account form 4-add Initial deposit with first character is space		An error message "First character must not have space" must shown	No error message is shown	Fail

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
BE1	Verify Account No	Account No cannot be empty	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Balance Enquiry 3-Balance Enquiry Form 4-do not add any value to Account No		An error message "Account No must not be blank" is shown	An error message "Account No must not be blank" displayed	Pass
BE2	Verify Account No	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Balance Enquiry 3-Balance Enquiry Form 4- add special characters to Account No	!@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" displayed	Pass
BE3	Verify Account No	Characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Balance Enquiry 3-Balance Enquiry Form 4- add characters to Account No	char	An error message "characters are not allowed" must shown	An error message "characters are not allowed" displayed	Pass
BE4	Verify Account No	First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Balance Enquiry 3-Balance Enquiry Form 4-add Account No with first character is space		An error message "First character must not have space" must shown	No error message	Fail
BE5	Verify Account No	Account number must be numbers	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Balance Enquiry 3-Balance Enquiry Form 4-add numbers only to Account No	123456	Account No added successfully	Account No added successfully	Pass

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
DA1	Verify Account No	Account No cannot be empty	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Account 3-Delete Account Form 4-do not add any value to Account No		An error message "Account No must not be blank" is shown	An error message "Account No must not be blank" is shown	Pass
DA2	Verify Account No	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Account 3-Delete Account Form 4- add special characters to Account No	!@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" shown	pass
DA3	Verify Account No	Characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Account 3-Delete Account Form 4- add characters to Account No	char	An error message "characters are not allowed" must shown	An error message "characters are not allowed" shown	pass
DA4	Verify Account No	First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Account 3-Delete Account Form 4-add Account No with first character is space		An error message "First character must not have space" must shown	No message	Fail
DA5	Verify Account No	Account No must be numbers	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Account 3-Delete Account Form 4-add numbers only to Account No	12345	Account No added successfully	Account No added successfully	pass

TestCase#	Test Scenario	Test Cases	Pre-conditions	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
DC1	Verify Customer Id	Customer Id cannot be empty	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Customer 3-Delete Customer Form 4-do not add any value to Customer Id		An error message "Customer ID is required" is shown	An error message "Customer ID is required" is shown	Pass
DC2	Verify Customer Id	Special character are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Customer 3-Delete Customer Form 4- add special characters to Customer Id	!@#	An error message "Special characters are not allowed" must shown	An error message "Special characters are not allowed" must shown	pass
DC3	Verify Customer Id	Characters are not allowed	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Customer 3-Delete Customer Form 4- add characters to Customer Id	char222	An error message "characters are not allowed" must shown	An error message "characters are not allowed" displayed	Pass
DC4	Verify Customer Id	First character cannot be space	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Customer 3-Delete Customer Form 4-add Customer Id with first character is space		An error message "First character must not have space" must shown	An error message "First character must not have space" displayed	Pass
DC5	Verify Customer Id	Account number must be numbers	-connected wifi -browser chrome is open -url is correct -manager login with valid credentials	1-manager page 2-Delete Customer 3-Delete Customer Form 4-add numbers only to Customer Id	12345	Customer Id added successfully	Customer Id added successfully	pass
